

campusimpact

Mission Statement:

**To Spread Good Works and Good News
to our Campus and Community.**

Values:

We desire to model the life of Jesus by doing good works for people in need, starting with our own campus. (Acts 10:38)

We believe the best way to share the message of Christ is by showing the love of Christ to those in need.

We seek to be a blessing to our college campus by serving the needs of each department and its students.

We desire to have CI members actively serving the faculty, staff and students of each academic department.

While we value the importance of preaching and teaching, our mission is to gain hearers through the sermons of our lives.

While each of us have been impacted by many people the leadership of CI is committed college students using their gifts and abilities for the good of our community.

While we desire to minister to our college campus first we also want to serve our community and its many needs.
