Dear Senator Tillis, Senator Budd, and Congressman Hudson:

I am pleased to offer my support for Randolph Community College's request for federal funding to establish the Liberty Education and Workforce Training Center. This investment will strengthen workforce development efforts in our region and support North Carolina's continued success in attracting and retaining industry.

The Center will provide workforce training, higher education, and business support focused on high-demand fields such as advanced manufacturing and healthcare. This project will help prepare a skilled workforce to meet the needs of major employers locating and expanding in the

region, including the Toyota Battery Manufacturing facility, Wolfspeed, Boom Supersonic, and JetZero, and will support job creation in Randolph County and surrounding communities.

This project represents an important investment in both our local economy and the long-term competitiveness of North Carolina's workforce. Expanding training capacity at Randolph Community College will help ensure that we are able to meet the growing demand for skilled workers across the Carolina Core.

Thank you for your consideration of this request. Please contact me if I can provide any additional information.

Sincerely,
