GENERAL INFORMATION

TESTING

Students must have a valid photo ID to be able to take the test at the end of their course. If you do not have a valid photo ID, your test will have to be rescheduled.

ENROLLMENT

Every effort will be made to accommodate maximum participation in the course(s) of your choice.

All attendees are encouraged to preregister to ensure available courses. Attendance is mandatory for all courses that begin on Thursday and Friday or you will not be allowed in courses on Saturday. Courses will be subject to cancellation due to low preregistration numbers, so please register as soon as possible!

Students should attend registration to sign in and there they will be given their class assignments. Registration will be located in the CEIC with signage directing them to the appropriate location.

FEE SCHEDULE

All students attending RCC's Fire & Rescue Week **MUST** pay a \$30 registration fee. The registration fee may be paid by check or money order made out to Randolph Community College.

All IN-STATE students who are affiliated with a Public Safety provider are fee exempt from tuition (but not the \$30 registration fee). All OUT-OF-STATE students or NON-PUBLIC SAFETY affiliated students are required to pay associated tuition fee (\$70), as indicated in the Course Information Section as well.

REGISTRATION AND PAYMENT

Registration forms and payments are currently being accepted. Please register as soon as possible to guarantee selections.

For registration form, go to page 10.

Completed registration forms may be mailed, dropped off in-person, or faxed to 336-633-3071. Payments must be mailed or dropped off in-person at the RCC Asheboro Campus. That address is:

**Randolph Community College, Attn. Fire & Rescue Week
629 Industrial Park Avenue, Asheboro, NC 27205**

Receipts will be given to all registrants upon arrival.

LOCATION

All on-site registrations will be held at the Main Campus in the Continuing Education and Industrial Center (CEIC). Courses will be held at the Randolph Community College Main Campus and the Emergency Services Training Center. **Unless directed otherwise, students should report to Main Campus for first course meeting.** Some sections require off-campus meetings. Transportation to these locations is **NOT** provided. (Maps provided at end of booklet.)

CERTIFICATES

Students who successfully complete the course in which they are enrolled will be awarded a certificate from Randolph Community College. Please print name legibly on registration form; certificates are processed from these forms. Successful completion includes attending all course sessions.

ACCOMMODATIONS IN ASHEBORO

Some area hotels are offering a discount for registered students. Be sure to mention the Fire & Rescue Week when making a reservation.

Comfort Inn & Suites, 1113 E. Dixie Drive, 336-636-5222
Fairfield Inn & Suites, 920 Executive Way, 336-626-9197
Hampton Inn & Suites, 1137 E. Dixie Drive, 336-625-9000
Holiday Inn, 900 Executive Way, 336-683-2850

FIREFIGHTER CERTIFICATION

FF Fireground Ops 2 (28 Hours)

Thursday 6 - 10 p.m., Friday - Sunday 8 a.m. - 5 p.m.

This course includes instructional content for Personal Protective Equipment (PPE). This course will present the candidate with the knowledge, skills, and ability to satisfy the requirements of NFPA 1001: Standard for Firefighter Professional Qualifications (2019 edition).

FF Fireground Ops 6 (28 Hours)

Thursday 6 - 10 p.m., Friday - Sunday 8 a.m. - 5 p.m.

This course includes instructional content for Ropes & Knots and Search & Rescue. This course will present the candidate with the knowledge, skills, and ability to satisfy the requirements of NFPA 1001: Standard for Firefighter Professional Qualifications (2019 edition).

FF Fireground Ops 7 (24 Hours)

Friday - Sunday 8 a.m. - 5 p.m.

This course includes instructional content for Water Supplies. This course will present the candidate with the knowledge, skills, and ability to satisfy the requirements of NFPA 1001: Standard for Firefighter Professional Qualifications (2019 edition).

FF Fireground Ops 8 (24 Hours)

Friday - Sunday 8 a.m. - 5 p.m.

This course includes instructional content for Hose, Streams, and Appliances. This course will present the candidate with the knowledge, skills, and ability to satisfy the requirements of NFPA 1001: Standard for Firefighter Professional Qualifications (2019 edition).

DRIVER/OPERATOR

Emergency Vehicle Driver (24 Hours)

*Friday and Saturday 9 a.m. - 6 p.m.,
and Sunday 9 a.m. - 4 p.m.*

This course deals with the safe operation of emergency vehicles, driving skills, legal implications of emergency driving, and departmental standard operating procedures.

Instructor: James Lamonds

Mobile Water Supplies (30 Hours)

Friday - Sunday 8 a.m. - 7 p.m.

This course is designed to educate fire apparatus drivers who are responsible for operating apparatus designed primarily for picking up, transporting, and delivering water to fire emergency scenes. This course provides an overview of safe maneuvering, accident prevention, fill site and dump site operations, as well as relay operation procedures.

Instructor: Robert King

SPECIALTY COURSES

HazMat Ops (36 Hours)

Wednesday - Saturday 8 a.m. - 6 p.m.

This course is designed to cover initial response objectives to a hazardous materials incident. This block will present the candidate with the knowledge, skills, and ability to satisfy the requirements of OSHA 1910.120 and Chapter 4, 5, 6.2, and 6.6 of NFPA 1072: Standard for Hazardous Materials/Weapons of Mass Destruction Emergency Response Personnel Professional Qualifications (2017 edition). This course should be offered consistent with the most current N.C. Fire and Rescue Commission guidelines; contact the Office of State Fire Marshal (OSFM) for details. Effective date July 1, 2020/NFPA 1072 Standard, 2017 edition.

Instructor: Dylan Lamonds

Fire Officer I (36 Hours)

Thursday - Sunday 8 a.m. - 6 p.m.

This course covers the knowledge, skills, and requirements referenced in the National Fire Protection Association (NFPA) Standard 1021 for Fire Officer I training. Topics include officer roles and responsibilities, budgets, fire cause determination, inspections, education, leadership, management, public relations, and other requirements included in the NFPA standard.

Fire Officer II (28 Hours)

Friday 8 a.m. - 6 p.m., Saturday and Sunday 8 a.m. - 5 p.m.

This course covers the knowledge, skills, and requirements referenced in the National Fire Protection Association (NFPA) Standard 1021 for Fire Officer II training. Topics include officer roles and responsibilities, budgets, fire cause determination, inspections, education, leadership, management, public relations, and other requirements included in the NFPA standard. Upon completion, students should be able to demonstrate an understanding of relevant NFPA standards as required for state Fire Officer I and II certification. This is a N.C. Fire and Rescue Commission certification course.

FLSE I (36 Hours)

*Wednesday - Saturday 8 a.m. - 5 p.m.,
and Sunday 8 a.m. - 12 p.m.*

This certification-related Fire and Life Safety Education (FLSE) course covers the basics of fire and life safety and is the first of three FLSE levels. Students will be introduced to injuries that occur in North Carolina and programs that are designed to prevent these injuries. Students will also discuss the mission of their organizations and the responsibility of prevention education, to include using correct/current fire & life safety educational messages and the role of the Fire & Life Safety Educator. This class is designed to give firefighters and fire & life safety educators ideas and confidence to teach fire safety to all ages. Students will participate in fire safety lessons and teach a safety lesson plan that they can use at their own fire department. Students will also be introduced to new Community Risk Reduction resources they can obtain at no cost. This class is designed to show a new educator how to keep successful records and reports. Students will review and document various fire & life safety educational programs, describe various formats, prepare written reports, and discuss time management and organizational skills. Information will be presented on how to develop and maintain a work schedule, arrange meetings, presentations, and community

events, while reducing scheduling conflicts. Working with local media outlets and distributing fire & life safety materials and messages to the community will be discussed in detail.
Instructor: Matt Hunt

FLSE II (36 Hours)

***Wednesday - Saturday 8 a.m. - 5 p.m.,
and Sunday 8 a.m. - 12 p.m.***

This certification-related Fire and Life Safety Education (FLSE) course is the second of three FLSE levels. Using their local data, students will establish the types of problems occurring in their community and then develop a plan to decrease these injuries or losses through a community risk assessment. To make the class more effective, students should bring fire and injury loss statistics from their local areas. Students will develop lesson plans and learning objectives for a Fire and Life safety program to meet the need in their community. Students will also develop appropriate informational materials, objectives, and instructional materials for a specific audience and topic, along with an evaluation component for an educational program. Students will use program needs, past expenditures, and personnel costs to create a budget that meets their current budget guidelines.

Instructor I (26 Hours)

***Friday and Saturday 8 a.m. - 6 p.m.,
and Sunday 8 a.m. - 5 p.m.***

This course will present the Instructor I candidate with the knowledge, skills, and ability to satisfy the requirements of NFPA 1041: Standard for Fire and Emergency Services Instructor Professional Qualifications (2019 edition; Chapter 4).
Instructor: Emmit Page

Instructor II (38 Hours)

Wednesday - Sunday 8 a.m. - 5 p.m.

This course will present the Instructor II candidate with the knowledge, skills, and ability to satisfy the requirements of NFPA 1041: Standard for Fire and Emergency Services Instructor Professional Qualifications (2019 edition; Chapter 5).

RIC Certification (48 Hours)

Tuesday - Sunday 8 a.m. - 5 p.m.

This course covers Safety and Survival, Mayday, and Rapid Intervention Crew (RIC), the three topics necessary to meet the knowledge, skills, and abilities to satisfy the key requirements of NFPA 1407: Standard for Training Fire Service Rapid Intervention Crews (2020 edition). This series course combines all content from courses FIP-6412 Rapid Intervention Crew (RIC 2020) and FIP-6413 Mayday/Safety & Survival (RIC 2020). This course should be offered consistent with the most current NC Fire and Rescue Commission guidelines; contact the Office of State Fire Marshal (OSFM) for details. Effective date July 1, 2020/NFPA 1407 Standard, 2020 edition.
Instructor: Perry Hall

Understanding the North Carolina Response Rating System (18 Hours)

Friday 7 - 10 p.m., Saturday and Sunday 8 a.m. - 4 p.m.

This class will review the latest information and factors which go into the make-up of the public protection rating of cities and fire districts. The system continues to evaluate three major categories of fire suppression: Fire Department, Emergency Communications, and Water Supply. The course also includes the Community Risk Section that recognizes community efforts to reduce losses through fire prevention, public fire safety, and fire investigation.

Equipment needed: A thumb/flash drive data storage device for latest information.

Instructor: Jeremy L. Hunt
Deputy State Fire Marshal NC OSFM
Asst. Instructor: James Fore
Deputy State Fire Marshal NC OSFM

Fire Chief 101 2020 Ed (8 Hours)

Saturday 8 a.m. - 5 p.m.

This certification-related course is designed to apprise chief officers of the various aspects and complexities surrounding the operations and organization of North Carolina fire departments. Emphasis will be placed on ratings and inspections, NFIRS reporting, prevention and relief funds, grant programs, basic line of duty death information, various state associations, and an overview of chief officer expectations in North Carolina. This class will satisfy the 9S insurance inspection criteria as specified by the North Carolina Administrative Code. This course should be offered consistent with the most current N.C. Fire and Rescue Commission guidelines; contact the Office of State Fire Marshal (OSFM) for details.
Instructor: Winfield Abee

Fire Chief 101 Update (4 Hours)

Saturday 8 a.m. - 12 p.m.

This certification-related course is designed as an update to the Fire Chief 101 Course. Course content is revised on a five-year cycle so that chief officers receive the most relevant and current information available. This course should be offered consistent with the most current N.C. Fire and Rescue Commission guidelines; contact the Office of State Fire Marshal (OSFM) for details.

Instructor: Winfield Abee

Advanced Extrication (24 Hours)

Friday - Sunday 8 a.m. - 5 p.m.

This class will cover vehicle stabilization and advanced extrication techniques. Students will learn how to stabilize vehicles and extricate victims from the most challenging situations such as rollovers, under rides, vehicles on their sides, and multiple vehicle collisions with multiple extrications. This class will be mostly scenario based, with a limited amount of classroom time. Students need to have at least a basic knowledge of all power and hand tool extrication equipment. This class is perfect for the student who has a basic knowledge of extrication and is ready to move up to the next level of training.

Equipment Needed: Full PPE
Instructor: David Reeves

Small Aircraft Fire/Rescue (16 Hours)

Saturday and Sunday 8 a.m. - 5 p.m.

This class will consist of classroom and hands-on training on the fire ground. On the first day, a three-hour block of lecture will cover the aircraft rescue and firefighting in a broader view. The second three-hour block will focus on general aviation aircraft and the hazards, as this is the type of aircraft structural firefighters are most likely to face. Day two will begin on the training ground, where students will get an up-close look at a small general aviation aircraft. We will cover the approach to the aircraft and rescue concerns. Students will get the opportunity to remove victims from the cabin several different ways. We will discuss stabilizing the aircraft, as well as securing the aircraft with a proper shutdown. We will then progress into a live burn where students will apply what they have learned to control an aviation incident. This class will utilize CCC's ARFF Training Aircraft.

Equipment Needed: Full PPE including air pack and spare bottle
Instructor: Rusty Starnes

Live Fire Engine Fundamentals (16 Hours)

Saturday and Sunday 8 a.m. - 5 p.m.

This class will focus on the fundamentals of successful engine company operations at residential structure fires. Stretching in a realistic environment, forcing entry, advancing the line to the floor above and below, and proper nozzle handling for extinguishment. Students will have the opportunity for multiple evolutions under live fire conditions.

Instructor: Brian Causey

Instructor Indoctrination (6 hours)

Friday 9 a.m. - 4 p.m.

This course reviews the rules and regulations that instructors must uphold while providing certification courses. Areas covered include written test administration, practical test administration, possible scenarios that could be encountered, and disciplinary action as a result of not properly administering certification courses.

Instructor: Michael Caviness

TECHNICAL RESCUER

TR Vehicle Block (48 Hours)

Tuesday - Sunday 8 a.m. - 5 p.m.

This certification-related course in vehicle rescue will present the Technical Rescuer (TR) with the knowledge, skills, and ability to satisfy the requirements of Chapter Ten Vehicle Rescue of NFPA 1006: Standard for Technical Rescue Professional Qualifications. Individual courses included in this block are Rescue Operations for Vehicle Rescue, Vehicle Anatomy and New Technologies, Stabilization and Extrication Techniques, Large Vehicle Rescue, and Victim Management. FIP-5710 transfers as one block, in its entirety, to the Office of State Fire Marshal (OSFM). Students must successfully complete all of the individual TR Vehicle Rescue courses that are part of this block to get credit for any of the courses and to be issued certification. This course should be offered consistent with the most current N.C. Fire and Rescue Commission guidelines. Contact OSFM for details.

Instructor: John Terry

NFA Courses

Requirements to attend: National Fire Academy SID number.
Please see link below for creating the SID.
NFA Link: <https://cdp.dhs.gov>.

Arson Detection for the First Responder (14 Hours)

Saturday and Sunday 8 a.m. - 4 p.m.

This class covers the basic techniques for determining fire origin and cause, and recognizing primary clues or evidence of arson. This is a National Fire Academy class offering instruction in the proper identification of incendiary fire from the level of a first in firefighter. Students will also learn the basic skills of managing a crime scene and the collection of various forms of evidence.

Leadership in Supervision Creating Environments for Professional Growth (16 Hours)

Thursday and Friday 8 a.m. - 5 p.m.

This two-day course presents the supervisor with the basic leadership skills and tools needed to perform effectively in the fire and EMS environment. The course includes concepts related to a successful transition to supervisory and leadership roles, including concepts of adaptive leadership; change management; active followership; effective communication, including difficult conversations and advocacy-inquiry based dialogue; ethics; authority; power; decision-making; and active engagement through development of a personal plan.

Prerequisite: NIMS ICS 100/200

Instructor: Stephen Lovette

Leadership in Supervision Perspectives in Thinking (16 Hours)

Saturday and Sunday 8 a.m. - 5 p.m.

This two-day course provides the supervisor with the conceptual foundation and framework for success in leadership roles by exploring creative, analytical, political, and critical thinking perspectives. The course addresses skills needed for assessing situations from multiple perspectives, making critical decisions, fostering creativity and innovation, and using persuasion.

Prerequisite: NIMS ICS 100/200

Instructor: Stephen Lovette

Leadership in Supervision Framework to Success (16 Hours)

Thursday and Friday 8 a.m. - 6 p.m.

This two-day course provides the supervisor with the knowledge and skills to perform successfully in the fire and Emergency Medical Services environments. The course addresses professionalism, resilience, emotional intelligence, and situational awareness, as well as managing conflict, delegating mentoring, coaching, empowering, and building collaboration and synergy for professional growth.

Prerequisite: NIMS ICS 100/200

Instructor: Curtis Teague

Safety Officer (16 Hours)

Saturday and Sunday 8 a.m. - 5 p.m.

This two-day course examines the Safety Officer's role at emergency responses. A specific focus on operations within an Incident Command System (ICS) as a Safety Officer is a main theme. Response to all-hazards types of situations will be emphasized.

Prerequisite: NIMS ICS 100/200

Instructor: John White

Decision Making for Initial Company Operations

DMICO (16 Hours)

Saturday and Sunday 8 a.m. - 5 p.m.

This two-day course is designed to develop the decision-making skills needed by Company Officers (COs) to accomplish assigned tactics at structure fires. All activities and scenarios used in this course are based on structure fires. With the real possibility of being the first to arrive at an incident, the CO's initial decisions will have an impact throughout the entire incident. It is vital that COs be able to make good management decisions that have a favorable impact on the eventual outcome.

Prerequisite: NIMS ICS 100/200

Preparation for Initial Company Operations PICO (16 Hours)

Saturday and Sunday 8 a.m. - 5 p.m.

This class is designed for company officers, acting company officers, or senior firefighters responsible for the management of a single fire company at an emergency incident: those officers who are responsible for company readiness, personnel safety, and leadership as it relates to company operations. This class is ideal for company officers, acting officers, or senior firefighters who command a fire company during emergency operations.

Prerequisite: NIMS ICS 100/200.

Strategy and Tactics for Initial Company Operations

STICO (16 Hours)

Saturday and Sunday 8 a.m. - 5 p.m.

This two-day course is designed to meet the needs of company officers responsible for managing the operations of one or more companies during structural firefighting operations. STICO is designed to develop the management skills needed by company officers to accomplish assigned tactics at structure fires. This class is ideal for any firefighters or fire officers who may be responsible for incident command at a structure fire.

Instructor: Curtis Teague

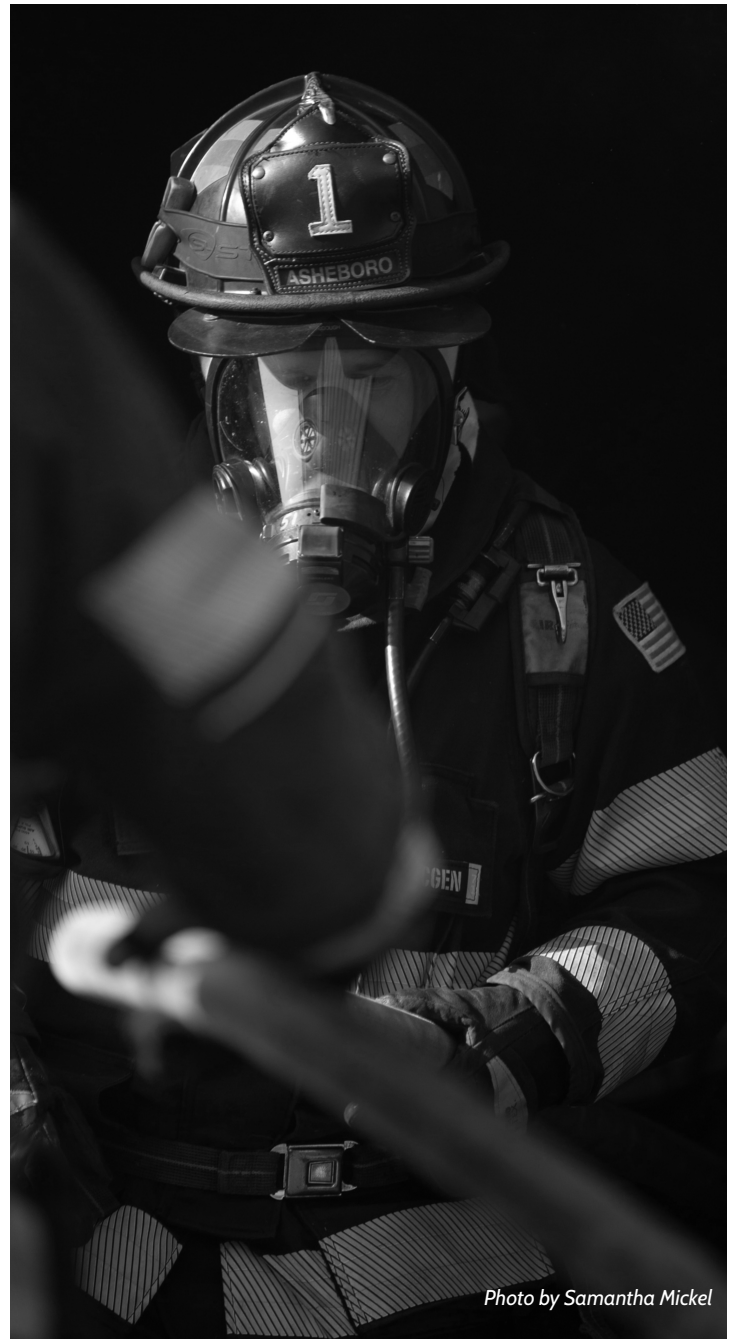

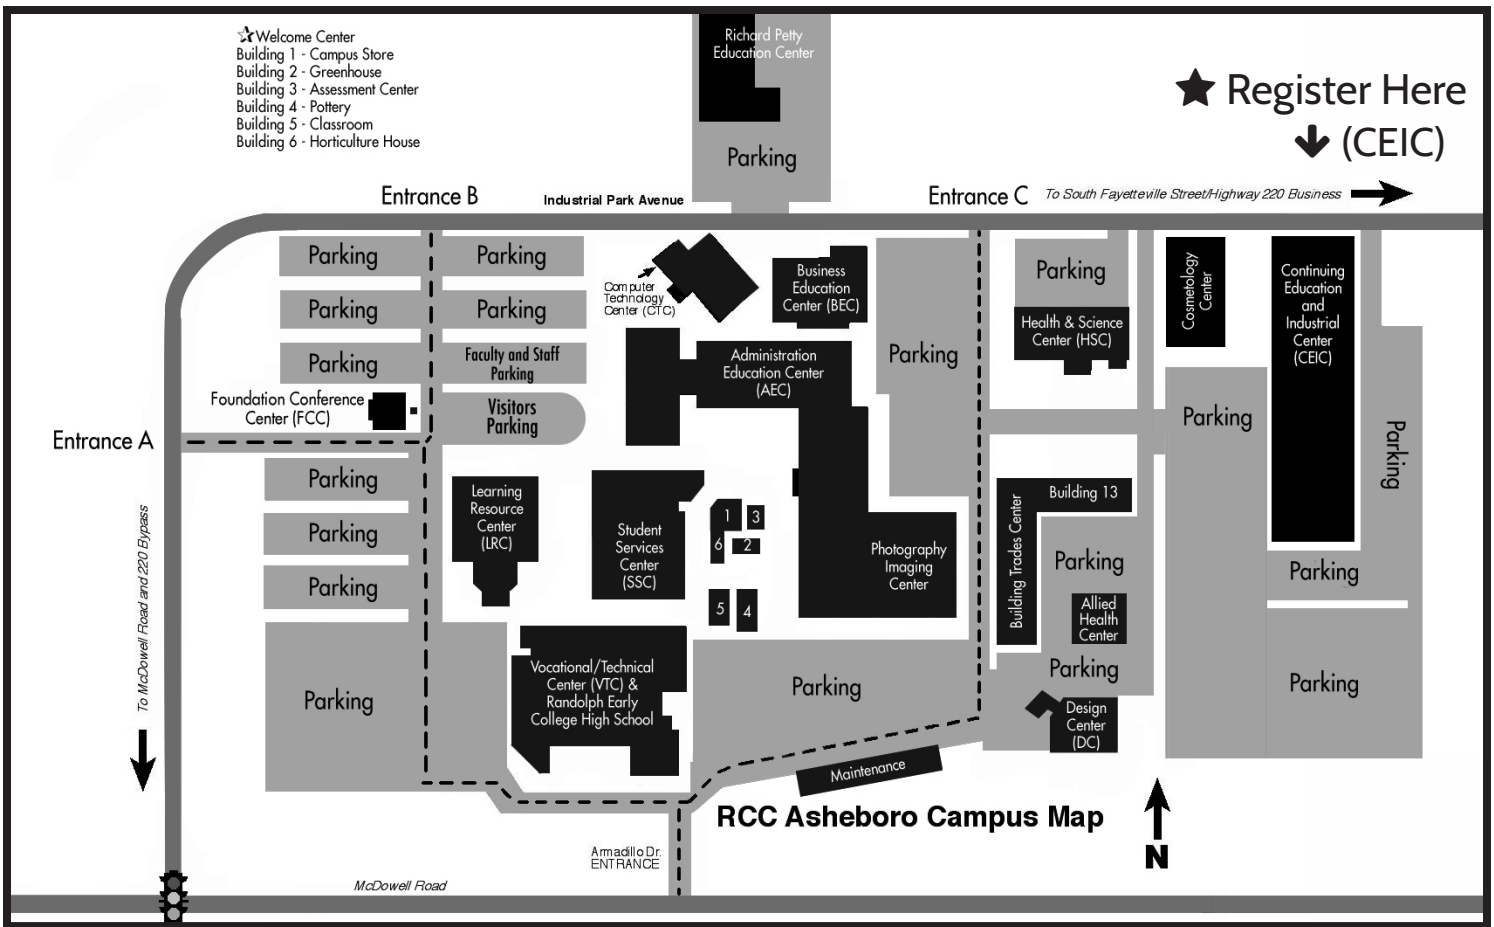

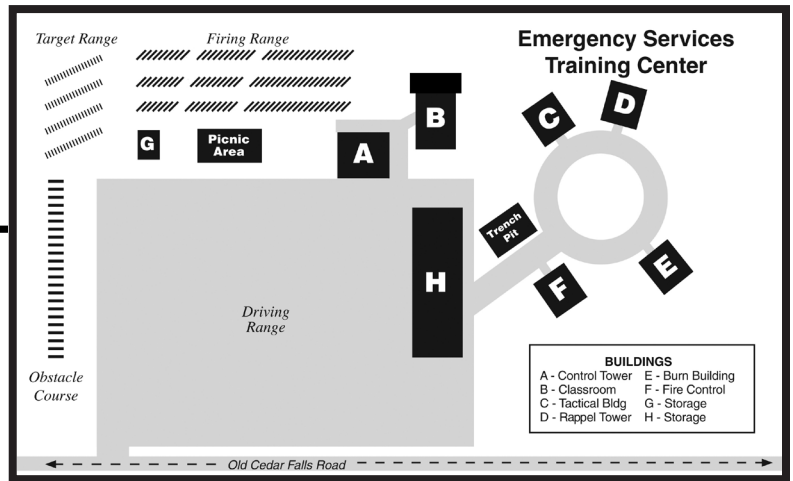

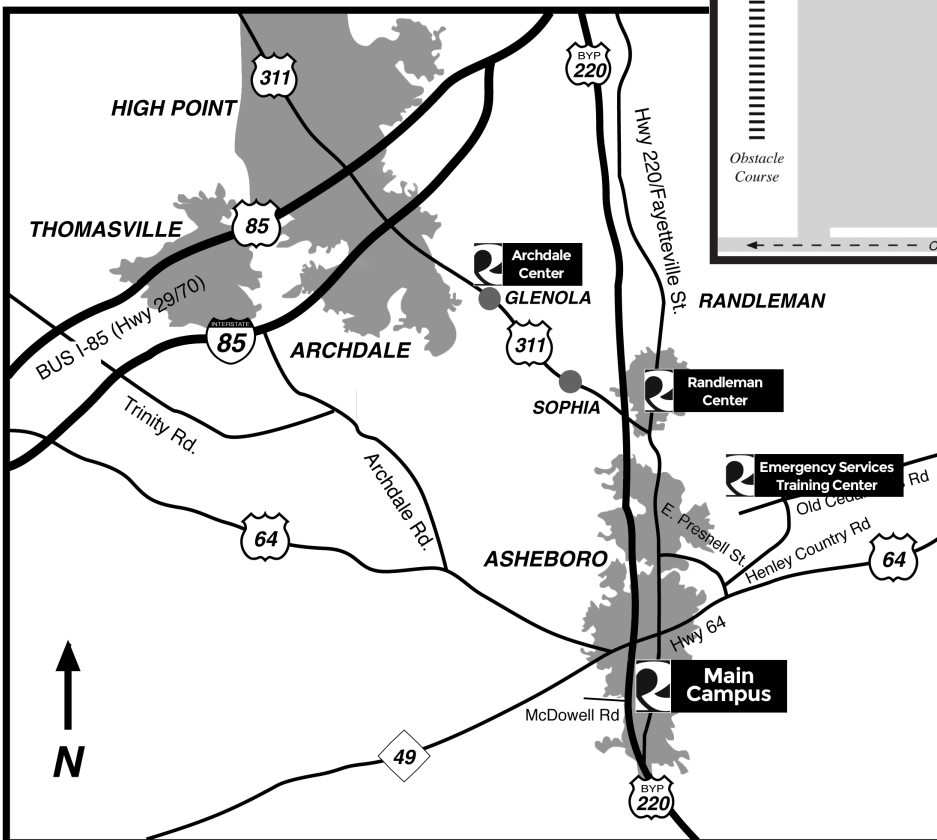

Photo by Samantha Mickel

The main RCC Campus is located at 629 Industrial Park Avenue in Asheboro at the McDowell Road exit of Highway 220 Bypass/I73/I74, just south of the interchange with Highways 64 and 49. It is 26 miles south of Greensboro, and Interstate Highways 40 and 85.

The ESTC is about 15 minutes from the main campus. To get there, take Highway 64 East from Asheboro. In 4.5 miles, turn left onto East Presnell Street and make an immediate right onto Henley Country Road. Go about 1.3 miles. At the stop sign, take a right onto Old Cedar Falls Road. Go another 1.3 miles and the ESTC will be on the left. (Please note that GPS picks up the ESTC address as 3659 Old Cedar Falls Road, Randleman.)

Randolph Community College

FIRE ACADEMY

Did you know RCC offers a fire academy in the spring and fall each year? Being successful in the fire service today takes commitment and quality training. The RCC Fire Academy offers both. If you seek to improve your marketability in the workplace or to enhance your current skill level, the RCC Fire Academy will offer you an opportunity to complete certifications in a timely manner or successfully prepare you for a career in the fire service. You will be provided structure, quality training, and the motivation needed to be successful in attaining your personal and professional emergency services goals.

RCC's Fire Academy is ideal for potential fire service members as well as existing fire service personnel. The Academy hours will be 8 a.m. - 5 p.m., Monday - Friday with physical training included daily. New academies begin each January and August.

Upon graduation, Fire Cadets will receive N.C. Firefighter certification, Hazardous Materials Level 1 Responder certification, Technical Rescuer: General and Vehicle Machinery Rescue certification, orientation to the fire service, and exposure to several area fire service agencies, as well as the physical and mental training required to excel in today's fire service.

Candidates must complete an application and a medical physical prior to the desired spring or fall academy semester. Enrollment is limited. Questions can be directed to Debbie Callicutt at dscallicutt@randolph.edu or 336-633-4165.

The Randolph County Association of Fire Chiefs is proud to sponsor the Randolph Community College 2022 Fire & Rescue Week. The Association will provide refreshments throughout the event. There will also be giveaways for registered students. (You're automatically entered upon registering for class.)

FIRE PROTECTION TECHNOLOGY

TAKE YOUR CAREER AS A FIREFIGHTER TO THE NEXT LEVEL

The Fire Protection Technology program is designed to provide the technical and professional knowledge needed for officer level decision making pertaining to fire protection for private and public sectors. It provides coursework in managerial and leadership areas necessary for promotion for existing firefighters as well as a solid foundation for continuing higher learning in the fire protection community.

Course work includes diverse fire protection subject areas, including fire prevention and safety, public education, building construction, fire ground strategies and tactics, and local government finance and laws as they apply to emergency services management. Emphasis includes understanding fire characteristics and the structural consequences of fire, risk assessment and management, and relevant research, communications, and leadership methodologies.

SACSCOC APPROVED

Earn an associate degree through Randolph Community College that will assist in promotional opportunity within your chosen field. The 65-credit hour program has multiple options that allow credit for prior learning to help speed you from first class to degree in fewer classes. If you have FF I & II, Fire Officer I & II, D/O Pumps, Fire Inspections, EMT, or FLSE I, II, & III or any combination of these, you can receive credit toward your degree.
