More Information:

RADAR/LIDAR Recertification is a one (1) day course for RADAR/LIDAR operators seeking recertification to operate RADAR/LIDAR in North Carolina. The day will consist of traditional classroom learning, practical exercises, and motor skills testing. Students will return on the following Friday to take the North Carolina State written examination. Students should review all training manuals and practice with the RADAR/LIDAR unit(s) prior to coming to class.

Topics:

- Course Orientation
- Legal and Operational Considerations
- Motor Skills Performance Testing
- Course Review
- NCDOJ Administered Certification Examination

Requirements:

- Currently certified or certification has not been expired more than one (1) year
- Employed or an appointed law enforcement officer of a federal, state, or local law enforcement agency
- A copy of the students current or recently expired (less than one (1) year) RADAR/LIDAR certification certificate

Equipment Needed:

- Patrol vehicle equipped with the approved RADAR(s)/LIDAR(s) for practice and motor skills testing
- Approved RADAR(s)/LIDAR(s) must be the model(s) the student is seeking recertification
- Current RADAR/LIDAR Training Manuals, Supplement Manual for Speed measuring Instrument Training Course (Appendix A, B, C, D) (Manuals may be provided by RCC)
